Natural Stone Veneer is available in full bed depth and thin options. THIN CUT VENEER is a natural stone that is sawn thin, making it lighter, so it can be adhered to a structural wall in the same way as synthetic stone. Less weight and increased coverage translate into reduced overall job costs.

Cinnamon Swirl Split Face

Laurelbrook Grey Tumbled

Our Laurelbrook veneer brings soft shadow tones to your project. Its natural color range includes cool grays, blues, & subtle earth tones.

Laurelbrook Grey

Rustic Buff Grey

Browns and earth tones have been in vogue for several years. Now, the trend is shifting, and gray is the new color of choice...and it's all the rage! Laurelbrook is one of our brand new attractive lines of gray veneer.
